## Most Powerful Muscle Car Photoshoot Burnout at Local Karting Facility

### The Dodge Challenger Hellcat Photoshoot at LeMans Karting Fremont

Fremont, Ca (October 6, 2014) - On October 8, 2014 LeMans Karting, a local fremont go-kart facility, hosted a photoshoot of the Dodge Challenger Hellcat. With the 707 horsepower 6.2 litre V-8 engine codenamed Hellcat, this Challenger is the most powerful muscle car ever made. The muscle car was at LeMans Karting doing burnouts for a photoshoot to showcase the new car model.

“Ebay Motorsports reached out to us about hosting their Hellcat photoshoot here at LeMans Karting. We knew it would be a great opportunity for car enthusiasts to come and see the most powerful muscle car in action for themselves”, Said Amanda Hurtado, GM of LeMans Karting Fremont. “Many people came to check out what the fuss was about and they were not disappointed.” Ms. Hurtado continued.

The Hellcat burned out tires and listed smoke up in the air a few times, enough to get photos and videos for everybody. After the photoshoot, people took pictures of the car and some even got to sit inside. It was a good turn out and car enthusiasts raced go-karts after checking out the new car model.

### About LeMans Karting

Founded in 2002, LeMans Karting is Northern California’s longest running go-kart racing and meeting facility. Powered by E-85 ethanol, their European-built karts are ‘greener’ than electric-only karts, can run continuously for more than two hours and are rated to 50 miles per hour. LeMans Karting brings the thrill of real wheel-to-wheel racing excitement for drivers of all skill levels. Conveniently located off of the Mission Blvd. cross-over between highways 880 & 680, LeMans holds corporate team building events for many of Silicon Valley companies such as Apple, Google, and Tesla Motors. Popular also for private parties, racing leagues and arrive-&-drive racing, LeMans Karting is definitely a must do in the Bay Area.
