

# MegaTrack™ Reintroduced by Fremont's LeMans Karting

## West Coast's only indoor-outdoor karting track gains City approval for expansion

**February 12, 2016, Fremont, CA** - LeMans Karting, Silicon Valley's premier corporate & private entertainment center for more than a decade, gained its city building permit to expand their popular karting track. "We have been working hard over the past year to get this approval," says owner, Rick Gaan. "It will be a great addition to our neighborhood track and we will continue to offer the best kart racing experience in the Bay Area."

The process has required a lot of collaboration between City officials, engineers, local citizens, and LeMans staff. Multiple studies have been conducted to ensure the track's safety record is upheld while still providing the best driving experience possible. In addition, the local community was able to give its input into the need for this addition in a public hearing.

Build-out is currently underway and LeMans Karting anticipates an early March launch date, though no firm date has been announced.

**About LeMans Karting** - Founded in 2002, LeMans Karting is Northern California's longest running go-kart racing and meeting facility. Powered by E85 ethanol, their European-built karts are 'greener' than electric-only karts, can run continuously for more than two hours, and are rated to 50 miles per hour. LeMans Karting brings the thrill of real wheel-to-wheel racing excitement for drivers of all skill levels. Conveniently located off the Mission Blvd. cross-over between highways 880 & 680, LeMans holds corporate team building events for many of Silicon Valley companies such as Apple, Google, and Tesla Motors. Popular also for private parties, racing leagues and arrive & drive racing. Reservations are recommended by calling 510.770.9001, or by visiting [www.lemanskarting.com](http://www.lemanskarting.com)
